the demand for heavy labor in the Province of Quebec moderate the uncontrolled trade, with a demand for such and firmer prices for its features.

Latino immigrants are doing well in the place of labor in the Province of Quebec in the Dominion this summer 51, against 48 last month and 47 the month before. The coal cleavings of Algonk, Montcalm, and Hamilton this week equal 53,000 tons, against 48,000 tons last week, but slightly more than in the same week last year.

**St. Peter's. St. Peter's congregation.**—The Holy congregation of St. Peter has addressed a declaration of opinion to the Canadian bishops in the Roman Catholic archdiocese in the Province of Quebec, in the name of the church there and announced that His Holiness the Pope has declared that the bishops of the Province of Quebec, at Archbishop of Lepanto, apostolic legate to the United States.

**St. Peter's power.**—The Pope has declared that the Monsignor St. Peter's apostolic legate to the United States is a document of considerable length. It contains primary positions and a declaration of the Pope's attitude all contentions in the church and after dependence.

THE CHIEF CHARM OF A REFINED WOMAN

PEACH BLOOM

SKIN FOOD

PEACH BLOOM contains nothing that can injure the skin. It is as pure as water, and leaves no trace of the slightest odor on the skin.

PEACH BLOOM differs from any known preparation in that it cleanses the pores of the skin from impurities, and imparts to the skin a soft, velvety texture.

PEACH BLOOM is the only skin food that will remove all skin blemishes, and leave the skin as soft and smooth as a baby's.

## BROOKE'S DAUGHTER.

BY ADELINE HERBERT.

Author of "The True Friend," etc., etc.

(By permission of John Lovell & Sons, Montreal.)

Lady Alice beatified. The avowed face and puffed, downcast—sometimes—sullen—looks of the sick man who bought her when she had left her nursing home, brook, had given her a gift.

"I suppose it is the truth, in part of what you say," she answered quickly, "but the other part I find that my gifts have been excessive and unjust. It seems that I have a great deal to learn in the art of giving. It does not come to me, as a matter of course. I have consulted the doctors and nurses, and I have to thank you for giving me a warning."

A look of surprise passed across the man's face.

"You're better than some of them," he said, "I thought you'd never let me see you again. I don't know why I should have let you see me."

"I don't know," she said, "but I don't think I should have let you see me."

"I don't know," she said, "but I don't think I should have let you see me."

**THE U. S. CATTLE QUARANTINE.**

Secretary Rusk's proclamation of a U. S. quarantine against Canadian cattle is to him, though not so, sufficiently important by the action of Great Britain in abolishing our live stock, on the ground that pleuro-pneumonia was found in Scotland among cattle brought from the St. Lawrence. The U. S. Government has spent large sums of money in its attempts to suppress the dreaded disease across the border, and a somewhat spirited discussion has been going on between English and American authorities as to whether the effects have or have not been successful. Mr. Rusk says they have, and the order has just given, which, moreover, gives Buffalo as the one point at which Canadian cattle may be admitted, would seem to be an act of good faith, which by the British authorities, by their action of not by their words, have met doubt upon. The effect upon Canadian trade of the order will not, however, be serious, as the operation of cattle to the United States, except in the case of very high class animals for breeding purposes, will, of course, be stopped. But it had been almost killed by the operations of the quarantine in the last year 1890 we sent to the United States 7,640 cattle, valued at \$104,623; in 1892 there went out across the border 551 animals, of a value of \$21,327. On the other hand, during the same time, the shipments to Great Britain rose from 66,965 animals, valued at \$8,556,310, to 101,426 animals, valued at \$7,481,613. The effect of the new order, therefore, even if it is continued, will be infinitesimal on the whole trade. The ground of Canadian complaint is that there is only the same justification for it that there was for Great Britain's scheduling order, that is, in none at all. There is no pleuro-pneumonia in Canada.—*Graphic.*

## EDITORIAL REVIEWS.

The English Conservatives won a notable victory on Saturday by capturing Huddersfield in a by-election. This is a great triumph for Gladstone's majority is 38. A few more such victories, and the G.O.M. will be de-throned.

That the executive ability of women is being recognized, is evinced by the fact that Mrs. O'Connor has been elected to the important position of chairwoman of the Toronto High School. This is a first appointment of the kind which has occurred in Canada. In England, women have done noble work in connection with education, and there is no reason why they should not render similar service in this country.

## Mrs. O'Connor.

TORONTO, Feb. 6.—A most interesting case has come to light here, being that of Mrs. Brown, of Agate street, who for years has suffered from Bright's Disease, the last two of which she spent in bed. Her feet were swollen so she could not walk, and being affected with paralysis was taken to the Toronto General Hospital, where, after undergoing a lengthened treatment which did her no good, and receiving nothing to the way of consolation save a certificate that she was incurable, and a permit permitting her to leave the hospital. Even then she did not give up hope and tried homoeopathic treatment, but with as little result as she had before. Finally, she decided to try them. The first week she noticed very little change, but her back began to feel easier, the swelling to leave her feet, and she was able to walk. She had been unable to do for two years before. Now, after taking Dodd's Kidney Pills for two months, she is completely cured so that she is about to take up school teaching again, a calling she pursued before being laid up.

## Commendable.

All claims not consistent with the high character of Syrup of Figs are purposely avoided by Company. The Syrup cleanses the system gently on the Kidneys, liver and bowels, cleansing the system effectually, but it is not a cure-all and no pretensions that every bottle will not substantiate.

## DOMINION ILLUSTRATED CHRISTMAS NUMBER.

This Christmas Illustrated Paper has been a great seller. The demand is again being met greater than the supply, while in some cities they were sold as high as \$1.00 per copy.

We have been fortunate this week in securing 25 copies at a greatly reduced price, and shall sell them at 25c, just half their published price. Responder—the supply is limited. Don't fail to secure a copy.

## THE ONTARIO OPPOSITION

WILL MR. W. R. MEREDITH BEAT HIS OPPONENTS?

It is said that his resignation in front of the House of Commons will be appointed to the Chief Justice's position.

A special despatch from London to the *Intelligencer*, states that the general impression that Mr. Meredith will be appointed to the Chief Justice's position is well founded.

Ottawa, February 9.—The report that Hon. W. R. Meredith, leader of the Opposition in the Ontario Legislature, will resign, is well founded.

A reporter to-day called on W. P. Hudson, M.P.P., but that gentleman was not at home. Hudson is a member of the Ontario Legislature and is a member of the Ontario Opposition. He is a member of the Ontario Opposition and is a member of the Ontario Opposition.

Who do you think will be the probable choice of the party? Well, I am not in a position to give any definite opinion on that matter. Next to Mr. Meredith, I would prefer to see Dalton McGowan as the leader of the party. I think it is his place, and I have no doubt that he will be a better man than Mr. Meredith.

When informed of the probable resignation of Mr. Meredith, Mr. McGowan said that if such was the case, he would be hard hit. "Without doubt," continued Mr. McGowan, "Meredith is one of the most honest and able men in Canada."

Mr. McGowan is a member of the Ontario Opposition and is a member of the Ontario Opposition. He is a member of the Ontario Opposition and is a member of the Ontario Opposition.

Mr. McGowan is a member of the Ontario Opposition and is a member of the Ontario Opposition. He is a member of the Ontario Opposition and is a member of the Ontario Opposition.

the bulk of the trade in Silver and Lamps, it serves to show where the China and Crochery business is done.

These three lines have been made specialties for over fifty years by us. We handle nothing but our own lines of goods and those direct from the manufacturer. No dry goods or groceries, books or boots, hardware or drugs, but in our own business we have fought our way to the front where we shall stay. There is no profit between the maker and us and that's why you get there for a dollar what you pay \$1.25 for anywhere else.

### BRITISH PARLIAMENT.

#### A TIF WITH BALFOUR AND GLADSTONE.

Revised. With a paper illustrating the Gladstone-Balfour dispute. The House of Commons, Feb. 11.—In the House of Commons yesterday, Mr. Balfour, Minister of Education, and Mr. Gladstone, Secretary of the Treasury, were engaged in a long and heated discussion on the subject of the proposed extension of the franchise to the working classes. Mr. Balfour, in his speech, defended the Government's policy, while Mr. Gladstone, in his reply, attacked it. The debate was continued until late in the evening.

# THE REFORMED EPISCOPAL CHURCH

The Reformed Episcopal Church

The Reformed Episcopal Church had a narrow escape yesterday from being consumed by fire. The sexton, John Worrell, during the morning bells on a hot fire in the wood stove. The floor under the stove was only protected by a thin sheet of iron, and as the sexton was about to leave the premises he saw smoke rising from the floor underneath the stove. He tried to put out the fire, but it was too late. The sexton, John Worrell, ran into Mr. N. M. Ostrom's, and catching up a pail of water threw it on the flames. With the addition of two or three more pails the fire was got under control. If he had got any ready the frame building would have been reduced to ashes in a few minutes.

# WHO WILL GET THE CONTRACT ?

Contractors are actively speculating on their chances for the new hotel.

Contractors are actively speculating on their chances for the new hotel. "Who is going to get the new hotel contract?" was a common question among contractors on the street today. The time for receiving the tenders closed Saturday night. Some forty tenders are in the hands of the directors only two of which are from contractors who make a general tender for the whole building. A reporter was unable to learn anything definite about the tenders, the directors declining to give anything to the public until they had time to go into them minutely. Mr. Corby M.P. stated in a report to-day that it would likely be several days before a successful contractor was known. It is altogether likely that the contract will be divided up among the different trades.

# THE LAST SAD RITES

The funeral of the late Patrick Tauber

The funeral of the late Patrick Tauber occurred yesterday afternoon at 3 o'clock. The remains were taken to St. Michael's church, where services were held, and thence to the cemetery for interment. The deceased was an old and esteemed resident of this city, having been for a great number of years engaged in manufacturing pursuits. He was 77 years of age.

# AN IMPORTANT CASE

A case was tried in the police court

A case was tried in the police court this morning which is important to a number of our citizens. The case was charged with making an excavation on Front street and destroying a portion of a drain, without having obtained permission from the proper authorities. Mr. D. A. Weiss was the prosecutor, and Mr. W. J. McLaughlin was the defendant. The latter had spoken to the superintendent of the waterworks in reference to the excavation to be made, and had been told by him to make the opening. The magistrate dismissed the case, but held that in future a proper writ would have to be obtained from the proper civil authorities before an opening could be made upon the public street.

PATRONS OF INDUSTRY.

Mr. Wm. Anderson, the President of the

Princes Edward County Association, is out

in a letter explanatory of the reasons for

and objects of the Association.

All organizations of a similar nature are

for the purpose of promoting the well being

of the members, and cannot fail to be

beneficial if confined to their legitimate

purposes.

The present agitation combines may or may

not be right, depending altogether upon

whether the combine in question is for the

purpose of increasing the price of an article,

or for the purpose of lessening the cost of

production, as for instance the Massey-

Harris combination in respect to manure.

The latter is a combine which did not increase

the price of manufactured articles, but by lessening

the cost of management, agriculture, &amp;c.,

was profitable to the combination, hence the frequent objection upon com-

bination is not always justifiable, as in this

instance, the combination by decreasing the

cost of production tends to cheapen the

article produced.

Again, the farmer should remember that

he is as much under obligation to the man-

ufacturer or the consumer as the consumer

is to him, and hence to be strictly within

the lines of justice, the complaint against

the duty on manufactured goods should be

extended to the duty on the cheap grain and

provisions of the west, which raises the

price to the manufacturer or consumer.

In other words, the Patrons of Industry,

if they demand the repeal of duty on all

manufactured goods, should in fairness in-

sist on free trade, in which case they would

soon see, for they, with the debt of the

nation dropped on the land, whilst the rich

man would smoke the imported cigar, drink

the imported wine, and would himself in im-

ported garments, without paying a cent to-

wards the revenue. Farmers are sometimes

inclined to believe that those with whom

they live off the soil, the farmers, when

brought to actual attention to this policy by

the farmers shipping their own grain they

found that there were two sides to that

question. And as well let them put their

money into manufactures, even with the

protective tariff, and would themselves in

fact be at the same price as the farmer, the

cleverest man to make even "just and fair

profits," and this Mr. Anderson claims the

Patrons of Industry, as should any reason-

able man, be willing to pay.

Budget speech, says:

Not since the famous session of 1879, when

the National Policy was launched in Parliament

and the pledges of Sir John Macdonald and his

party to the country were made, has there been

so much talk in the announcement of the Govern-

BELEVILLE, SATURDAY FEB. 18  
INTERVIEWING.

Our friend WILLIAMSON BOULDER, of Princeton, Prince Edward County, has been interviewed by the Toronto News on the tariff question and delivered himself as follows:

"I don't take any stock in this tariff reform agitation," said President Boulter of the Farmers' Association, yesterday, and the farmers' view of the tariff (Prince Edward) don't differ. It won't have any effect on them. You see, take old Canada, a girl will live and die as the Tory will do the same. Any changes that occur among the younger folks, I don't believe in sudden conversions."

"Then D'Alton McGowan's declaration for reform has not had any effect in Prince Edward?"

"No, why should it? I like to look at a man's object; that's the first thing. Why did McGowan break away? He said himself, according to the Toronto News, that one reason was because the Government had not consulted him."

"Then you don't think he is in earnest about the tariff?"

"Oh, I don't know. As a man who was elected to support the Government, and who he wanted any changes he had made gone to the Ministers and talked the matter over instead of breaking away. It had, however, to tell what a man's object is. There's eight years, for instance, I'm convinced he is a man who is not a man who would ever have heard of Egan McGowan. He had said to him, 'Of course I don't come to McGowan to you, as he was a lawyer of prominence before, but in looking at him, he would become a leader, and that was why he broke away.'

Talking about tariff reform Mr. Boulter said that taking the duty off corn to benefit the farmer was all both. The only people he would benefit were the distillers. He believes the whole agitation has originated with the Ontario Government to make capital for their party among the farmers."

## THE MINING CONNECTION.

According to the revised programme of the International Mining Congress, which meets shortly at Montreal, arrangements have been made for the reading or presentation of nearly sixty papers bearing upon the mineral resources and mining industries of the Dominion. The Dominion Mining Institute, a fine opportunity for impressing American visitors and capitalists generally with the rich field for judicious investment that Canada comprises. The attendance will, we are glad to learn, be extensive. The gentlemen and 64 ladies having signified to Mr. Raymond, secretary of the American Institute, their intention of going to Montreal. Pennsylvania will be especially well represented. The General Association of the Province of Quebec, of which the Hon. Geo. Irvine is president and Mr. B. T. A. Bell is secretary, has obtained small appropriations from the Dominion and Quebec Governments—about \$1,000 altogether—but this is not likely to go far in providing for so many visitors. Application has been made to the City Council of Montreal for an additional \$1,000, on the ground, obvious enough, that the town will derive considerable benefit from the presence there of something like six hundred people of the intelligent, educated and well-to-do class, for a week or so. This is the fourth time that the American Institute of Mining Engineers has visited Canada—the second time that it has favored Montreal in this way. The Engineers met at Halifax in 1889, in Ottawa in 1890, and that last meeting did much to spread a knowledge of our nickel, asbestos and copper mines, our phosphate deposits, our slate quarries, etc., and from the forecast already given, we have reason to expect that the approaching meeting will be equally advantageous in diffusing a knowledge of our mining wealth.—Gazette.

## Commendable.

All claims not consistent with the high character of Syrup of Figs are purposely avoided by the Cal. Fig. Syrup Company. Its sale only on the kidneys, liver and bowels, cleansing the system effectually, but it is not a cure and makes no pretensions that every bottle will not substantiate.

The Mines Committee of the House of Commons, yesterday, on the subject of the Nova Scotia coal deal.

On Feb. 18, yesterday, on the subject of the Nova Scotia coal deal.

Mr. Mills made the adjournment of the House in order to get a chance to bring the matter up. He said he understood that the Nova Scotia Legislature had passed an Act which was wholly within the jurisdiction of the Province. He was asked to interfere. That advice was not tendered through the responsible advisers who are the Crown but by four members of Parliament who were not in the House. He said it was right that the House should know how far members and persons who were not members might go. He quoted some English precedents and held that the action of the four members was wholly at variance with the English system of constitutional government. He said that the House ought to be dissatisfied with the action of the four members. He said that the House ought to be dissatisfied with the action of the four members. DOMINION PARLIAMENT.

**The Privilege of the Ballot to be Extended to the Northwest Territories—Supreme Court Decisions—A Judge exonerated.**

**OTTAWA, Feb. 21.**—The budget debate dragged its weary length along yesterday afternoon and evening, but interest in it is over, and it is simply a question of a few gentlemen on both sides of the House wishing to place on record their particular views. No new or startling arguments are being adduced, and none are expected. Several members on each side are hooked to speak, and it is not likely a division will be

reached before to-night.

Dr. MacDonald (Heron) resumed the debate and spoke up to recess, going pretty well over all the old ground against the National Policy. He praised the Ontario system of disposing of timber limits and contrasted it with the policy adopted by the Dominion Government, to the disadvantage of the latter. He attacked the Government for its long-continued imposition of the taxes on binder twine and coal oil, and pointed out that since the Finance Minister had reduced the duty on binder twice the price of that article had fallen one cent a pound, while the price of coal oil had gone down six cents a gallon since the importation of American oil in bulk is permitted.

This he claimed as evidence that the farmers had been robbed by these excessive duties, and as showing the justness of the claims of the Opposition, that the duty on these articles should be abolished. He denied that the policy of the Government developed the industry in the country, as some of the manufacturers received too much protection and others not enough, and held that the National Policy did not increase the labor market.

He touched on the exodus and quoted the old figures as to the number of people alleged to have left Canada in the last 10 years, and wound up with a hour speech with a review of the situation for laborers, in which he endeavored to show

After recess the debate was continued by Messrs. McLennan, Devlin, Craig and Choquette. The adjournment of the debate was ordered by Mr. Selley, and the House adjourned at 11.45.

Mr. Coatsworth gives notice that he will speak on Wednesday whether the Government has been made aware, through its officers or otherwise, of the unsuitability of the Government buildings in Toronto for carrying on the Government business in a satisfactory manner, and whether attention

The Supreme Court met today for the delivery of judgments, amongst the decisions given being the following:

**Attorney-General of Canada v. The City of Toronto**, appeal from the Court of Appeals, Ontario; allowed with costs, **Paterson, J.**, dissenting.

**Campbell v. Patterson and Mader v. McKinnon**, appeals from Court of Appeals, Ontario; dismissed with costs.

**Hazen v. South Norwich**, appeal from Court of Appeals, Ontario; validity of by-law respecting sale of liquor, which only was argued, dismissed.

Arguments on constitutional question respecting local legislation for sale of liquor ordered to be set down for May term, then to be argued before a full bench.

**E. C. v. Helton**, appeal, from Court of Appeals, Ontario; dismissed with costs.

The following private bills were read a second time to-day and referred to the Committee on Railways, Canals and Telegraph Lines:

Act respecting the Manitoba and Southern R. Co.—**Mr. Larviere**.

Act to incorporate the Cleveland, Port Stanley and London Transportation and Express Co.—**Mr. Macdonald**, in agreement respecting the London and Port Stanley R. Co.—**Mr. Boome**.

Act respecting the London and Port Stan-

By Ry. Co.—Mr. Monroff.  
Act respecting the Port Arthur, Duluth  
and Western Ry. Co.—Mr. MacDonald (Al-  
boma).  
Act to incorporate the Atlantic and Pa-  
cific Ry. Co.—Mr. Bergin.  
Act respecting the G.T.R. Co. of Canada.  
—Mr. Tisdale.  
Act respecting the Southeastern Railway  
—Mr. Pope.  
Act to incorporate the Calgary Street  
Railway Company—Mr. Davis.  
Quite a number of questions were asked  
and answered about local matters, none of  
which were of general interest.  
An agreement made across the floor by  
Sir John G. Thompson and Mr. Laurier, the  
principal of railway companies, was discussed.

number of approved motions for papers passed, amongst them Mr. Davin's motion for Judge Westmore's report on the charges made against Commissioner Herchmer of the Northwest Mounted Police.

Mr. Maclean (East York) has presented a petition of 210 constables of the Province of Ontario, who ask that the fees allowed them for arrests, attending justices, and so on, be reduced by the new criminal code, be restored to the old figures. When the bill amending the code comes up he will try to get the figures amended.

When the House met after recess a very beautiful wreath of calla lilies and other white flowers was lying on the table. It was from the members for Vancouver.

D. W. Gordon, member for Vancouver

"The Conservative members of the House of Commons regret exceedingly to hear of the demise of their late colleague, and tender you their deepest sympathy in your great affliction."

Mr. J. D. Thompson last night gives notice of a bill to amend the Northwest Territories Representation Act, which extends the ballot to the territories.

Judge Macdonald of the Supreme Court

Nova Scotia has asked to be placed on the Supremacy list and his request was granted at yesterday's meeting of council. Mr. Hugh McDonald Henry, a leading member of the bar of Halifax, was appointed to succeed Judge Macdonald on the Supreme Court bench of Nova Scotia.
